KINDERGARTEN ENROLLMENT and ALTERNATIVE KINDERGARTEN PROGRAMS

The sections of the *Revised School Code* that address this issue are contained in the Michigan Compiled Law under MCL 380.1147 and 388.1606.

Enrollment Age

Michigan law entitles a resident child who is at least five years of age on or before December 1 to enroll in kindergarten until the 2013-2014 school year [MCL 380.1147]. For the 2013-2014 school year, a child who resides in the school district may enroll in kindergarten if the child is at least 5 years of age on November 1, 2013. For the 2014-2015 school year, a child who resides in the school district may enroll in kindergarten if the child is at least 5 years of age on October 1, 2014. Beginning with the 2015-2016 school year, a child who resides in the school district may enroll in kindergarten if the child is at least 5 years of age on September 1 of the school year of enrollment. For the district to be eligible to count the pupil in membership and receive state aid, the pupil must meet these age requirements [MCL 388.1606(4)].

Note: *The ages prescribed above for a child's eligibility for enrollment in a school district also apply to a child's eligibility to enroll in a public school academy.*

Exceptions Provided for Enrollment Age

If a child residing in the school district is not 5 years of age on the enrollment eligibility dates listed above, but will be 5 years of age not later than December 1 of a school year, the parent or legal guardian of that child may enroll the child in kindergarten for that school year if the parent or legal guardian notifies the school district in writing not later than June 1 before the beginning of the school year that he or she intends to enroll the child in kindergarten.

If a child becomes a resident of the school district after June 1, the child's parent or legal guardian may enroll the child in kindergarten for that school year if the parent or legal guardian submits this written notification to the school district not later than August 1 before the beginning of that school year.

A school district that receives this written notification may make a recommendation to the parent or legal guardian that the child is not ready to enroll in kindergarten due to the child's age or other factors. However, regardless of this recommendation, the parent or legal guardian retains the sole discretion to determine whether or not to enroll the child in kindergarten.

If a school district or public school academy enrolls any children in kindergarten for a school year under subsection (3), the school district or public school academy shall notify the department of the number of those children enrolled by not later than December 31 of that school year.

Note: *Districts are not required to enroll a child in kindergarten until the child meets the age eligibility of the school year of enrollment as described above. If a district did agree to enroll a four-year old, the district would not be able to claim the child for state school aid purposes.*

Alternative Kindergarten Programs

The Michigan Attorney General ruled in an opinion cited as 1987 OAG 6467 that when a child is qualified by residence and age to attend kindergarten, the school district is obligated to accept the child's enrollment in kindergarten despite any recommendation of school district personnel that the child attend an alternative developmental kindergarten program.
